MORTALITY					
30 Premature Death (years lost before age 75) [7]	2006 - 2008	5,922	5,293	(4981, 5606)	**10th**

*Rankings: the "ideal" position (the "healthiest" value) is ranked #1. Two of California's 58 counties (Alpine and Sierra) are not ranked, due to small population size. For some topics, more counties are excluded due to small numbers; where fewer than 56 counties are ranked, the actual number is shown. The 95% Confidence Intervals are shown when calculated by *County Health Rankings* and represent the range of values that contain the parameter for Santa Cruz County 95% of the time.

**Data misclassification by one city led to an inaccurately high reported violent crime rate for the County. Ranking reflects that inaccurate data; color key does not.

The original data sources are listed below. However, the data shown above were accessed through the County Health Rankings report.

1) National Center for Education Statistics (NCES)
2) U.S. Census Bureau, American Community Survey (ACS)
3) Bureau of Labor Statistics, Local Area Unemployment Statistics (LAUS)
4) U.S. Census Bureau, Small Area Income and Poverty Estimates (SAIPE)
5) Behavioral Risk Factor Surveillance System (BRFSS)
6) Uniform Crime Reporting, FBI
7) National Center for Chronic Disease Prevention & Health Promotion, from BRFSS
8) National Vital Statistics System (NVSS)

9) CDC's National Center for Hepatitis, HIV, STD, and TB Prevention
10) U.S. Census Bureau, Small Area Health Insurance Estimates
11) Health Resources and Services Administration's Area Resource File (ARF)
12) Dartmouth Atlas of Health Care, using Medicare claims data
13) CDC-EPA Collaboration, Public Health Air Surveillance Evaluation (PHASE) project
14) Census County Business Patterns
15) USDA, Food Environmental Atlas
